United States Circuit, A bill ably by the Judiciary Committee of expected to go through the House without serious difficulty. The need evident, and has been frequently the State Bar Associations On this long circuit.

We have within the State good denominational colleges where girls may complete their training; and we have a normal school where teachers are caupped for the service of the State, but these do not suffice. We must have a great school open to every ambitious girl; including significant time to reading it. The press of the country have a great school open to every ambitious girl; including girl; i

Colonel Sir James Dunlop Smith has just been appointed to the office of political aide-de-camp to the Secretary of State for India, at Whitehall, in the place of the late Colonel Sir William Curzon Wyllie who was murdered last spring by a young Indian student in London, while attending an entertainment at the Imperial Institute, organized for the beneft of young natives of his class. The assassination created a great sensation at the time, as Sir William Wyllie was shot down literally at his wife's side dying almost instantily.

upon any square foot of Virginia soil, Is largely unfounded. Such a fear may be regarded as a veritable phantom that will mingle with mist and quickly disappear before the banners and resolute tread of the large and growing army bent upon rescuing the Old Dominion from the demon drink.

Many thinking people fall to see the early or remote prospect of an admission on the part of whiskey-sellers and those favoring the traffic that time is opportune for the State-wide movement. Undern babes will be gray-haired and decrept while we walt, and the drunkards hell continue to claim its toil.

We believe the gauge of war has been flung and that the battle is on.

When State-wide prohibition has been flung and that the battle is on.

When State-wide prohibition has been adopted and given a fair trial in Virginia, as it is most assuredly likely to be in the not distant future, the undersigned indulges the hone and expectation that there will follow a hitherto unknown unanimity and healthy blending efrublic opinion upon

So I think we will have to turn sooner or later to law and equity, I cannot say when this time will come. Certainly, not till there is a well-rooted public sentiment. I am like Dr. Pitt: I believe in conservatism or prudence, and certainly no man should be censured for this in any deliberation. And while the time may be in the remote future to legislate against such an evil, yet I believe it is now at hand when it should be agitated.

This is a -public evil which is manifest. It poisons the mind and lowers the standard of cilizenship, and, further, leads many boys into trouble and juvenile crime and punishment. There is no doubt that many will laugh at my position when I say that a law that will abolish one evil should also abolish another. But many who will laugh at this doubtless laughed when the Anti-Saloon League proposed to exterminate the evil of the bar.

I indorse the writer from Petersburg, and believe, like her, that our anxiety to crush one form of evil should not make us blind to the many others.
